## Year 10 Curriculum Overview [2022-2023] Subject – Interactive Media

Autumn Term	Knowledge & Understanding			Literacy Skills  Opportunities for	Employability Skills [if any]	Assessment Opportunities
	Composites	Components [includes understanding of KEY concepts & subject specific vocab]	Formal Retrieval [if any]	developing literacy skills		
HT1 and HT2	Requirements for developing an interactive media product	<ul> <li>features of interactive media products</li> <li>target audience</li> <li>sources</li> <li>processes</li> <li>techniques</li> <li>health and safety issues related to computer use</li> </ul>	<ul> <li>Web design elements</li> <li>Creating for an audience</li> <li>Web design techniques</li> </ul>	<ul> <li>Writing to persuade</li> <li>Following instructions independently</li> <li>Verbal and written justification</li> <li>Report writing</li> <li>Reading for research</li> <li>Logging skills</li> <li>Analytical writing</li> </ul>	<ul> <li>Independent learning</li> <li>Health and Safety</li> <li>Experimentation</li> <li>Using Hardware and Software</li> <li>Web Design</li> <li>Self-analysis</li> </ul>	Assessment in line with exam board criteria:  • Understanding features of Interactive media • Experimenting with Interactive media
	Experiment with interactive media products	experimentation of processes and techniques	<ul><li>Web design skills</li><li>Process and techniques</li></ul>			

## Year 10 Curriculum Overview [2022-2023] Subject – Interactive Media

Spring Term	Knowledge & Understanding			Literacy Skills Opportunities for	Employability Skills [if any]	Assessment Opportunities
	Composites	Components [includes understanding of KEY concepts & subject specific vocab]	Formal Retrieval [if any]	developing literacy skills	[ii diiy]	3,000
HT3 and HT4	Experiment with interactive media products  Review of experimentation	<ul> <li>experimentation with software</li> <li>experimentation with hardware</li> <li>selection of processes and techniques</li> <li>use of software</li> <li>feedback</li> <li>skills development</li> </ul>	<ul> <li>Software skills</li> <li>Hardware skills</li> <li>Self-assessment skills</li> <li>Questionnaires</li> </ul>	<ul> <li>Report writing</li> <li>Reading for research</li> <li>Verbal justification</li> <li>Extended oral answers</li> <li>Annotating</li> <li>Descriptive writing</li> </ul>	<ul> <li>Meeting         Deadlines         Planning</li> <li>Time         management</li> <li>Asset         management</li> <li>Gathering         feedback</li> </ul>	Assessment in line with exam board criteria: • Experimenting with Interactive media • Reviewing experimentation with Interactive Media • Describe what is
	Understand how to produce a proposal to meet a brief	<ul> <li>ideas development</li> <li>audience/end-user</li> <li>technical aspects</li> <li>design aspects</li> <li>content</li> </ul>	<ul><li>target audience</li><li>skills and techniques available</li></ul>			required in a proposal

## Year 10 Curriculum Overview [2022-2023] Subject – Interactive Media

Autumn Term	Knowledge & Understanding			Literacy Skills Opportunities for	Employability Skills [if any]	Assessment Opportunities
	Composites	Components [includes understanding of KEY concepts & subject specific vocab]	Formal Retrieval [if any]	developing literacy skills		
HT 5 and 6	Produce a proposal meeting the requirements of a brief  Produce planning for an interactive media product	<ul> <li>ideas development</li> <li>audience/end-user</li> <li>technical aspects</li> <li>design aspects</li> <li>content</li> <li>project planning to meet the criteria of the brief</li> <li>use of recognised design processes for functionality and appearance</li> <li>selection of assets</li> </ul>	<ul> <li>target audience</li> <li>skills and techniques available</li> <li>Colour schemes</li> <li>Layout</li> <li>Interactive "widgets" available</li> </ul>	<ul> <li>Report writing</li> <li>Annotating</li> <li>Reading for research</li> <li>Short oral answers</li> <li>Expository writing</li> <li>Open and closed questions</li> </ul>	<ul> <li>Planning</li> <li>Time         management</li> <li>Asset         management</li> <li>Gathering         feedback</li> <li>Meeting         Deadlines</li> </ul>	<ul> <li>Produce a proposal meeting the requirements of a brief</li> <li>Planning a product that meets a brief</li> <li>Evaluate the planning process.</li> </ul>
	Review the proposal and planning	<ul> <li>how well planning addresses the design brief</li> <li>choice of interactive media product</li> <li>the intended platform of the product</li> <li>selection of assets and processes</li> <li>feedback</li> <li>timescales/meeting the deadlines</li> </ul>	<ul> <li>Self-evaluation skills</li> <li>Questionnaire production</li> <li>Skills and techniques</li> </ul>
