How to revise effectively in RE

Retrieval Practice – This could be to create quizzes, make Flash cards, create a Mind Map or answer past paper questions.

Spacing - Learning a little information regularly, rather than trying to learn a lot in a single day. Learn the information then re-visited and see what you can remember. LOOK – SAY – COVER – WRITE – CHECK

Interleaving – Going over the information you learnt a while ago as well as the new information. Make quizzes, answer questions, create Spider diagrams with pictures (Dual Coding)

A Good Study Partner - A good study partner is motivated to revise and will challenge you to work hard. This could be a parent testing you, a zoom quiz with classmates, a friend testing you at breaktime.
